

## Modeling Digestion

### 1. The Mouth

What is happening when the bag is squished?

What enzyme is inside of the mouth that helps with digestion?

### 2. The Esophagus

What does the clear tube represent?

Why is the tube being squished?

### 3. The Stomach

What does the green liquid inside the stomach represent?

What happens when the stomach is being squeezed?

### 4. Small Intestine

What is being absorbed in the small intestine?

### 5. Large Intestine

What is absorbed in the large intestine?

### 6. Rectum

What is the function of the rectum?
